The IB Global Conferences

Each year, the International Baccalaureate® (IB) presents several conferences and symposia. We gather educational leaders, decision makers and practitioners from schools, universities and governments to focus on international education. Our conferences identify best practices for the ways we educate students, giving practitioners the opportunity to exchange valuable ideas on international education.

The **IB Global Conference is the largest annual gathering of the IB community** for each region. The 3 day conference provides an opportunity to come together and to share best practices around the ways we are educating students. The IB Global Conference, The Hague, Netherlands 2017 will be held at **The World Forum, The Hague from 26th – 28th October.**
