Session Objectives

Goal:

Our goal is to provide educators strategies and examples of gamification and enrichment they can use in their classrooms that will lead to increased student motivation, engagement, and promote a life of learning.

Objective:

Educators will receive resources to help develop and incorporate games and enrichment into their classroom.

What is Gamification?

Gamification is the idea of using game elements in non-game contexts.

- Theme
- Competition
- Point Scoring
- Game Mechanics

IB CONFERENCE

Chicago, IL • 23–26 July

Research: Why Use Gamification in the Classroom?

- 97% of Teens Play Games (Pew Research Center)
- Gamification can also be used for the purpose of improving user engagement and instruction (Kim, 2015).
- Most companies (50%) predict that they will gamify at least one aspect of their workplace by 2015 (Hanus & Fox, 2015).
- Our Thoughts

Games in My Classroom

- Game Club
- Apocalypse Machine
- Robotic Companies
- Fridley Space Program
- Levelled Challenges

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

What Are Levelled Challenges

- Levelled challenges teach a real-life skill with game elements
- Levelled challenges focus on skills not explicitly taught in curriculum
 - Keyboarding
 - Digital Organization
 - Programming
 - Digital Citizenship

Design Challenge—Homestyler!

This challenge is designed to help you start learning about architecture, floor planning, and 3d modeling! The challenge starts with the steps below. Be sure to follow them carefully! If you have any questions, be sure to ask Mr. Hron!

This challenge requires the use of the internet, and asks you to set up an account with an online service. While this service is provided by a software company we use software from in school, it is important to remain safe online. DO NOT give out personal information like your name or address online.

- **Level 1:** Go to: www.homestyler.com

Click on Create New Design in the tabs on top.

- **Level 2:** A pop-up should show up that says, “Start Designing with Autodesk Homestyler”.
 - Click the Green “Get Started Now” Button
 - You will see a grid on the right, and different design functions on the left
 - Design a square room
- **Level 3:** Press the green home button in the upper left corner of your screen
 - Select “Doors”
 - Add a door to your room
 - Go to the green home button and select windows
 - Add a window to your room
- **Level 4:** Using your school google email, save your project and create an account (DO NOT give away personal information like your name or address)
 - Finish making your room

After you have finished creating your first room, go to File → Export Image, and email the image of your room to Mr. Hron! Mr. Hron's email is:

Why Levelled Challenges Engage Students

- Inspiration-many of my challenges were inspired by student activities
- Differentiation-students will find challenge at their level
- Leveled-students get sense of accomplishment almost immediately
- Available-always available for students
- Feedback System-students receive positive feedback through email
- Application-each challenge has real life application
- Dynasty-student achievement will be on my wall...forever
- Mobile-most challenges students can do at home

A Simple Caption

This is a work in progress. So I am not expecting people to like my website. If you do, good, if you don't I honestly dont care

More about the site

In my class there is an optimal assignment called: Programing Challenge-html. And that is how I learned to html program

A list of reasons why I like html programing

- A lot of collages look for programers.
- Professional programers get paid a lot of money.
- ITS FUN!

Observations on Levelled Challenges

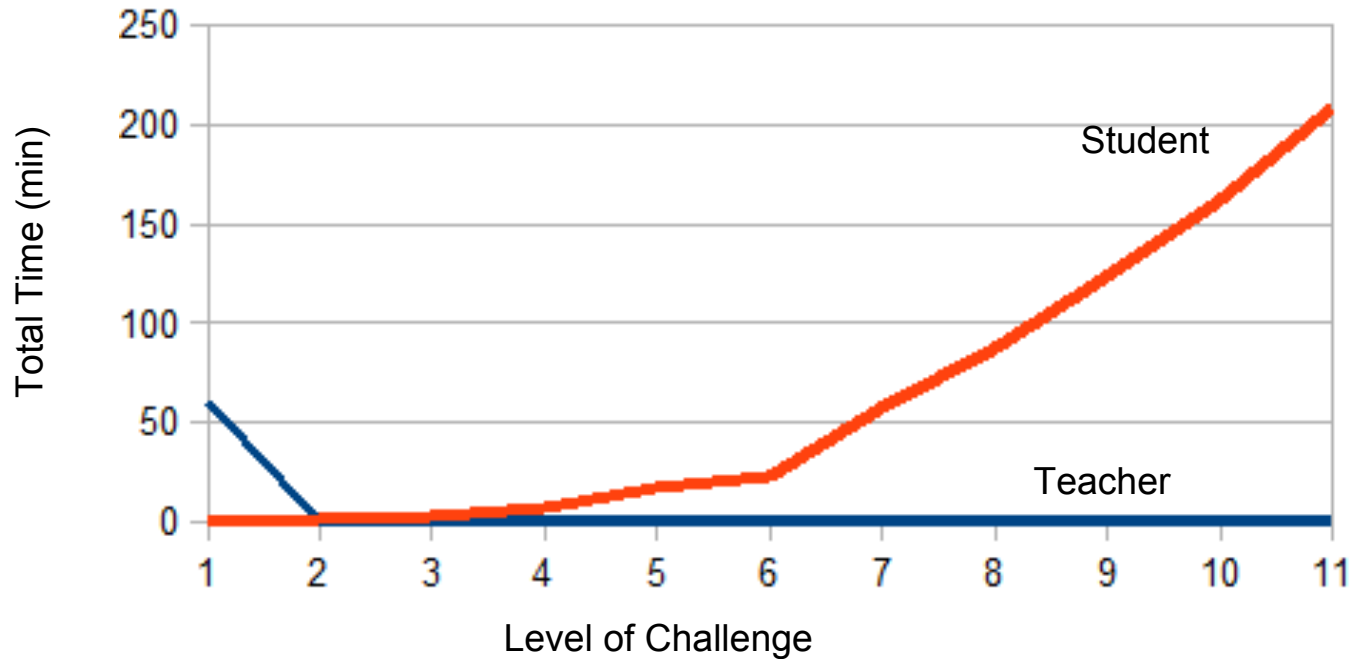

- Increase in student interest and accomplishment
- Students doing ‘homework’ that is not required
- Students asking high level questions

- Not all students ‘buy in’
- Some students rush through class work to get to challenges
- Challenges take some time to create

Levelled Challenges: Solving Time

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

Creating Levelled Challenges

- Start with something you are interested in
- Or idea inspired by students
- Idea should have real life value

- Challenge should be hyper-detailed
- Beginning levels should be EASY, to build sense of student accomplishment
 - Level 1: Paragraph introducing topic
 - Level 2: Have student answer a question about topic
 - Level 3: Introduction to resource
- Or, alternatively
 - Level 1: Introduction to resource
 - Level 2: Teach resource
 - Level 3: Begin using resource to improve skill

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

Creating Levelled Challenges Continued

- Middle Levels should begin practicing the skill
- Levels should get more challenging and rigorous as they go up
- Level 4 should be initial proof of learning
- Level 7 should be proof of skill improvement
- Level 10 is final project
- Levels 8-10 should build towards final project
- Final project should be proof of skill mastery
- Final project should be something students can be proud of
- Final project should be published somewhere

- Continue dialog with students

Gamification in IB Math Classroom

This is my interpretation of
Gamification used in my
6th Grade Math Classes.

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

Prior to Creating and Implementing

1. No previous experience.
2. Went to a tech conference and attended two sessions on Gamification.
3. Read The Multiplayer Classroom: Designing Coursework as a Game by Lee Sheldon.
4. Decided to give it a shot.

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

How I Got Started

1. Decided on the topic or concept
2. Lesson, Review, and Assessment?
3. Time Length
 - a. Most of time have done 1 - 2 days.
 - b. Two days can get long especially if students are competing

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

How I Got Started

4. Decided on a theme and challenge
 - a. Descartesland - Role Playing - Mathematicians incorporated
 - b. Defeating Disney - Role Playing - Disney inspired
 - c. Our Favorites - Topical - My favorite things

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

How I Got Started

5. Decided on point system and create a template for keeping score

(self-elements)

- a. Descartesland - 2 lives, 5 pascals (points per continuation), final level of expertise
- b. Defeating Disney - collecting artifacts, final level of expertise
- c. Our Favorites - most points win, point varied per level and bonuses could be found via easter eggs

IB CONFERENCE
OF THE AMERICAS 2015
Chicago, IL • 23–26 July

How I Got Started

6. Created a game play outline
 - a. Introduction page outlining game scenario
 - b. Created a template for each level and decided on how many levels were desired. Usually about 6-8 levels are plenty in a two day activity.
 - c. All of my examples had 6 levels.

Playing the Game

1. Introduce game and instructions for playing
2. Get groups started at same time - Google Classroom makes this easy
3. Have groups work on problem and then show answer as group
4. If answer correct input score, then send out next level.
5. Repeat
6. Above all have fun and make it fun for the students!
