What is a subject-specific seminar?

The IB publishes new subject guides at the beginning of the calendar year, and then offers subject-specific seminars to help educators understand and implement the changes.

Why should I attend?

Subject-specific seminars offer an important opportunity for experienced teachers to fully acquaint themselves with changes to a particular subject area. They explain and exemplify the teaching and learning framework, the guidelines and requirements for implementation, the objectives and criteria, and the assessment tools and task types.

Academic staff from the programme development team and/or a member of the curriculum review team will be on hand throughout the workshop to answer questions and participate in discussion.

Details

Subject-specific seminars will be held at face-to-face events within the first three months of publication of the new guide. All workshops held after the subject-specific seminars (online and face-to-face) will work to the new guide; any workshops held before the subject-specific seminars will still work to the current guide.
