Letter from IB North America

Dear Colleague:

Professional development is the foundation of all IB programs. IB North America provides this foundation by offering varying levels of training with specific goals and objectives. Included in this booklet you will find the tools you need to choose the correct workshop for your professional development requirements. To this end, we have included:

- the intended audience of each workshop level (page 3)
- the goals and objectives of each workshop level (page 4)
- a listing of all subjects available at each workshop location (pages 8-14)
- an overview of workshops (page 15)

Because new orientation workshops may be scheduled at any time they are not included in this booklet. You will find a listing of orientation seminars and all IB North America professional development events including contracted workshops, draft programs and Hotel & Travel Information on the IB web site, <http://www.ibo.org/events>.

I hope you continue to find IB North America professional development valuable to your school and to your students. Please do not hesitate to call IB North America at 212.696.4464, if you have any questions or concerns.

Sincerely,

Anthony Tait
Head of School Services & Professional Development
IB North America

Description of Workshop Levels

IB North America offers a four-tiered workshop structure that is designed to articulate to the audiences training goals and objectives of each workshop and seminar. Please see page 4 for a complete description of the training goals and objectives.

A note to teachers and coordinators who:

- have extensive IB teaching experience but find themselves teaching in applicant schools
- do not have IB teaching experience but find themselves teaching in schools with long-established IB programmes

Under these circumstances, teachers need to consider the goals and objectives of Level 1 and Level 2 workshops (page 4) to decide which workshop will best fulfill their training needs.

Teaching Experience/ <i>IB Teaching Experience</i>	Orientation	Level 1	Level 2	Level 3
New/ <i>New</i>		X		X
Experienced/ <i>New</i>		X	X	X
Experienced/ <i>Experienced</i>			X	X
All Educators	X			X

Pre-requisite for Level 3 workshop is attendance at a Level 1 or Level 2 session.

Orientation Seminars are one-day sessions that are designed for school officials and leaders who are investigating the feasibility of bringing the IB to their schools. *Orientation Seminars are not required training and do not cover the application process.* IB North America Workshop Providers and Associations of IB World Schools offer Orientation Seminars which can be found on the IB Events Calendar at <http://www.ibo.org/events>. Please see page 17 & 18 for a complete list of IB North America Workshop Providers and Associations of IB World Schools. Orientation Seminars are not included in this publication because additional seminars may be scheduled at any time throughout the year.

Level 1: Application & Authorization Workshop is a three-day workshop that provides training and assistance for schools that have decided to apply for IB authorization. For PYP, Level 1 training includes an optional session covering Part B of the application process. Level 1 workshops are open only to teachers currently teaching in IB schools or in applicant schools. *Please note that Level 1 is the only required training for the Application and Authorization process.*

Level 2: Experienced IB Teachers Workshop is a three-day workshop for teachers who have completed Level 1 training and/or who teach in schools that have begun to implement the IB. For PYP schools, the Level 2 workshop is for authorized schools as well as candidate schools that have submitted Part B of the application. *Level 2 workshops are open only to teachers currently teaching in IB schools or in applicant schools.*

Level 3: Topical Seminar is a three-day workshop covering an extensive range of subjects. Please visit <http://www.ibo.org/ibna/workshops/> for more detailed information regarding each seminar. Seminar descriptions indicate the audience(s) for whom the topic is appropriate. *Please read seminar descriptions thoroughly before registering.*

Our Mission

The International Baccalaureate Mission Statement

Education for a better world

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

Déclaration de mission du Baccalauréat International

L'éducation pour bâtir un monde meilleur

Le Baccalauréat International a pour but de développer chez les jeunes la curiosité intellectuelle, les connaissances et la sensibilité nécessaires pour contribuer à bâtir un monde meilleur et plus paisible, dans un esprit d'entente mutuelle et de respect interculturel.

À cette fin, l'organisation collabore avec des établissements scolaires, des gouvernements et des organisations internationales pour mettre au point des programmes d'éducation internationale stimulants et des méthodes d'évaluation rigoureuses.

Ces programmes encouragent les élèves de tout pays à apprendre activement tout au long de leur vie, à être empreints de compassion, et à comprendre que les autres, en étant différents, puissent aussi être dans le vrai.

Declaración de principios

Una educación para un mundo mejor

El Bachillerato Internacional tiene como meta formar jóvenes solidarios, informados y ávidos de conocimiento, capaces de contribuir a crear un mundo mejor y más pacífico, en el marco del entendimiento mutuo y el respeto intercultural.

En pos de este objetivo, la organización colabora con establecimientos escolares, gobiernos y organizaciones internacionales para crear y desarrollar programas de educación internacional exigentes y métodos de evaluación rigurosos.

Estos programas alientan a estudiantes del mundo entero a adoptar una actitud activa de aprendizaje durante toda su vida, a ser compasivos y a entender que otras personas, con sus diferencias, también pueden estar en lo cierto.
