### IB certificates in teaching and learning

#### THE INTERNATIONAL SYMBOL OF EXCELLENCE

IB teachers transform learning and are catalysts for infusing higher-order thinking skills into a new generation of students. The IB teaching and learning framework allows institutions to offer two distinct experiences for IB certification:

**The IB certificate in teaching and learning** equips educators with the principles and practices associated with the Primary Years, Middle Years, Diploma and Career-related Programmes. These teachers are reflective practitioners and researchers.

**The IB advanced certificate in teaching and learning research** equips teachers for rigorous, systematic investigative work. These teachers advance schools' curriculum development, pedagogy and assessment.

### IB certificates in leadership

#### INSPIRING LEADERS TO MAKE A DIFFERENCE

IB-certified leaders guide and inspire school communities that want to implement and sustain IB programmes or become authorized IB World Schools. They excel in two areas of leadership development:

**The IB certificate in leadership practice** develops educators and administrators who are prepared to take on leadership responsibilities and assist in guiding a school through IB authorization, implementation and beyond.

**The IB advanced certificate in leadership research** empowers educators and administrators with deep capacities in rigorous investigative work and a profound understanding of IB leadership responsibilities and capabilities.
