Service learning interviews

As part of service learning students engage in three interviews with their service learning coordinator. These interviews are documented by the coordinator and the student as evidence of student achievement of the five learning outcomes.

**Let’s begin...**

Before

Service learning is the development and application of knowledge and skills to meet an authentic community need.

Investigating/Prepping

What issue/s interest you?
How could you learn more?
How could this project help you grow?
What planning needs to take place?
How do you know your plan is ethical?

How will you conclude your engagement?

Interview 3

Let’s reflect...
