

Name: _____

Date: _____

What We Know About Bridges

- Bridges are used to go over something (water, valleys, other roads)
- Bridges have many different shapes in them (cylinders, squares, rectangles, triangles, pyramids, pentagons, rhombuses)
- Bridges are built differently depending on what they are used for
- Bridges can be found all over the world
- Bridges look like they are more stable when they have triangles and pyramids in them
- Bridges use braces for support

Write your definition of what a bridge is. (Be sure to use complete sentences!)

A bridge is _____

Our Bridge Plan

Our bridge will look like this

The materials we are using to build our bridge are: _____

Our bridge was / was not strong because _____

Next time I would make it stronger by _____

Our bridge is a _____ bridge
