Culture 1: The school secures access to an IB education for the broadest possible range of students. (0301-01)

Schools should seek to make their IB programme(s) available to as many students as possible, ensuring equality of access to the curriculum and providing students with the support they need to set and meet appropriately challenging educational goals. For more information on admission, access and inclusion in the IB, please consult the From principles into practice publication for the relevant programme(s). These publications are available on the IB programme resource centre.
